

Environmental & Cultural Resources

Working with environmental agencies, existing resource information will be compiled and mapped in a draft Environmental Inventory.

This assessment of the natural and cultural resources will be used in the development of alternatives to avoid and minimize resource impacts.

Information will be assembled on:

- Puncheon Run and its tributaries
- Isaac Branch and its tributaries
- Wetlands and floodplains
- Agricultural areas
- Parklands and public open space
- Archeological and historic resources
- Threatened and endangered species habitats
